Space Problems Notwithstanding

Fall Schedule Set for Ring House Gallery

A glance at the most recent brochure from the University's Ring House Gallery foreshadows a busy and exciting year for the Gallery and its patrons. But it will not be a year without difficulties as the Gallery continues to cope in inadequate surroundings.

"The closure of the Students' Union Gallery (see *Folio*, 8 July) has had an impact on the Ring House," explains Helen Collinson, Director of the Gallery and Curator of the University Collections. "We are housed in a building which was originally intended as a private dwelling and our inadequate spatial resources are now even more apparent ... We will have to make long-term changes in our exhibition policy to try to meet some of the exhibition needs for a major University that were formerly handled by the SUB Gallery."

According to Mrs. Collinson, the space difficulties faced by the University are also faced by the City of Edmonton, whose public museum and gallery space is now about one-third of that available in Calgary. "Edmonton obviously needs more exhibition space," she states. And so does The University of Alberta. "The University Collections Committee continues to dream of a new facility at The University of Alberta to service the University Collections, their care and exhibition."

Such a dream requires major funding. At present, the Ring House Gallery relies on many outside funding sources for its exhibition program. While the University provides the staff and

operational funding required to keep the Ring House open to the public, additional funding for displays comes from the Visual Arts Branch of Alberta Culture. In addition, the Gallery receives financial support from the University's Special Projects Fund, the Alma Mater Fund, and the Canada Council. "At long last," says Mrs. Collinson, "our acquisitions program is well established and is supported fully by both the University and outside organizations and individuals."

The Ring House Gallery contribution to the 75th Anniversary celebrations has been a great success. *O! Osiris! Live Forever!* began in June and runs to the end of this month. An exhibition on the investigation of mummification, the display has so far attracted nearly 8,000 people. "*O! Osiris!* really strained our meagre physical resources," says Mrs. Collinson. "I'm sorry that the Gallery was often so crowded and hot. But we loved doing the show and the response has been gratifying."

Two exhibitions are scheduled to run concurrently at the conclusion of *O! Osiris!* A display on German Poster Art will begin on 15 October and continue until 24 October. An exciting cross-section of diverse German poster art, the display was produced especially for Canada at the request of the Goethe Institute, Berlin.

A small exhibition of paintings and satirical sculptures by Calgary artist J.D. Turner also begins on 15 October. This display, which runs until 26

October, is being held in conjunction with the publication of Turner's autobiography by The University of Alberta Press.

The Gallery, which will close at the conclusion of the Egyptian Exhibition, will re-open on 14

October and observe its regular winter hours of 11 a.m. to 4 p.m. weekdays (9 p.m. Thursdays), and 2 to 5 p.m. Sundays. More information on the Ring House Gallery may be obtained by calling the Gallery at 432-5834. □

EFF Distinguished Visitor

Kazimierz Miczynski, Professor of Plant Virology at the Academy of Agriculture in Krakow, Poland, is conducting research in the Department of Plant Science.

Dr. Miczynski was born in Posnan (Poland) in 1926. In the years from 1945 to 1952 he studied botany and agricultural sciences at the Jagellonian University in Krakow. After graduation he worked as a research and teaching assistant in the Laboratorium Botanikum Janczewskianum at the same university, and then at the Department of Botany of the College of Agriculture in Krakow. In that period he started research on problems of virus diseases affecting potatoes and tobacco in Poland, especially with the view to help breeders in their selection procedures.

In 1956 he obtained his PhD degree, conferred by the College of Agriculture in Krakow, after presentation of the thesis: "Investigations on the mutation of the potato virus X induced by ultrasonics." In this work the possibility of inducing virus mutation *in vitro* by means of

ultrasound energy was revealed. In 1957 Dr. Miczynski was appointed a lecturer (adjunct) at the Chair of Botany of the same university, and simultaneously he worked as a part-time worker in the Virus Laboratory of the Department of Plant Physiology, Polish Academy of Sciences in Krakow. His research was mainly directed towards problems of virus variability, and biochemical changes induced in plants by viral infections. In 1958-59 he completed his plant virological

studies first at the Rothamsted Experimental Station in England, where he worked as a post-doctoral research fellow in the laboratory of the late Sir F.C. Bowden, and later at Cornell University with A.F. Ross in the Department of Plant Pathology.

After returning home he started a large scale study on the occurrence and variability of the potato virus Y in Polish potato cultivars. It was shown that this virus occurs in various strains differing considerably in virulence in southern Poland. The second line of research was devoted to the study of infectious viral RNA, isolated from the potato virus X. A gel-electrophoresis method developed by Dr. Miczynski made it possible to isolate the so-called free viral RNA out of infected plants.

In 1967 Dr. Miczynski was promoted to the position of assistant professor at the Botany Department of the College of Agriculture in Krakow. During the period 1967-1971 he was head of this department, and at the same time he was in charge of the Virus Laboratory in the Department of Plant Physiology,

Polish Academy of Sciences. In 1972 Dr. Miczynski departed for the two-year sabbatic leave, first to the University of Guelph, where he worked in the Department of Environmental Biology with B.H. MacNeill on problems of anti-viral plant inhibitors and induced resistance. This was subsequently continued in the Institute for Molecular and Cell Biology of the CNRS in Strasbourg, in the laboratory of L. Hirth.

After returning home in 1974 Dr. Miczynski resumed his duties as an assistant professor in the Institute of Plant Biology of the Academy of Agriculture in Krakow, where he lectured on general botany and plant virology. In 1979 he was promoted by the state council to the rank of associate professor in agricultural sciences.

Investigations conducted by Dr. Miczynski include both basic and applied aspects in plant virology: the first is mainly concerned with physiological mechanisms of plant resistance against virus infection, the other is devoted to searching for natural sources of resistance against viral diseases in some important agricultural crops.

The common interest in virus infection and disease resistance and other topics in plant virology is the main reason for his collaboration with the Department of Plant Science of The University of Alberta, where Dr. Miczynski is associating with C. Hiruki on specific problems of disease resistance of alfalfa against alfalfa mosaic virus and characterization of the virus strains important in Alberta. This joint work is supported by a Farming for the Future grant from the Alberta Agriculture Research Council and should give more insight into the mechanism of virus resistance and will make it possible to develop disease resistant cultivars of alfalfa.

Dr. Miczynski is a member of many scientific societies including the International Horticultural Society, International Association for Plant Tissue Culture, and European Association for Potato Research. □

NSERC Major Installation Grants 1982-83

The Natural Sciences and Engineering Research Council has announced its 1982-83 awards for the updating of research equipment in Canadian universities. According to NSERC's latest information release, 478 grants totalling \$23.4 million have been awarded to professors. The updating of research equipment is a priority item in NSERC's five-year plan, a priority evidently understood by the federal government which has allowed NSERC to increase its equipment funding by 100 percent over the last two years.

Among the many beneficiaries of NSERC's foresight are several professors at The University of Alberta. What follows is a list of the recipients of equipment awards at this University, their departments, the equipment applied for, and the value of the award.

Belcastro, A. (Physical Education) — High speed centrifuge with rotor \$13,576

Bisanz, J. (Psychology) — Microprocessing and video display equipment 7,000

Clive, D.L.J. (Chemistry) — HPLC and control system 49,000

Dawson, W.K. (Physics) — Upgrading University of Alberta computer installation 18,000

Dusseault, M.B. (Mineral Engineering) — True triaxial process simulator 39,350

Ellyin, F. (Mechanical Engineering) — Pressurization system for the multiaxial large plastic deformation and low cycle fatigue test facility 29,600

Etsell, T.H. (Mineral Engineering) — Atomic absorption spectrophotometer 23,074

Hudson, R.J. (Animal Science) — Physiological telemetry system 9,487

Hughes, D.G. (Physics) — High speed signal averager and pushbutton signal processor

25,645

Kaufman, W.R. (Zoology) — High pressure liquid chromatography system 19,730

Kotovych, G. (Chemistry) — Update of the high resolution 400 MHz NMR cryospectrometer 25,000

Offenberger, A.A. (Electrical Engineering) — Transient waveform digitizer system 71,820

Peter, R.E. (Zoology) — High speed centrifuge with heads 12,247

Smith, D.E. (Civil Engineering) — Total organic carbon 22,000

Smy, P.R. (Electrical Engineering) — Oscilloscope and accessories 24,730

Spencer, A.N. (Zoology) — Neurophysiological recording 19,000

Westlake, D. (Microbiology) — Analytical scintillation system 17,810

The total value of the preceding awards is \$427,069. □

75th Poster on Sale

A high quality commemorative poster suitable for framing is now on sale in the University Bookstore. The poster features a perspective view of the University as it was originally proposed in 1912 and revised in 1915 by Percy E. Nobbs and Frank Darling, architects.

The poster, complete with delivery tubes, will make an ideal gift to visiting speakers, relatives and alumni, or to colleagues in other institutions.

Why not drop in to the Bookstore now that the rush is over and take a look. (If you haven't time right now, every department on campus already has a copy of the poster, so ask your Dean, Department Chairman, or Director for a look.)

Only three hundred posters have been printed initially; they are expected to go quickly. □

Get Fit This Fall!

Do you wake up Monday mornings feeling like it's Friday night, late Friday night? If so, the Staff Health and Fitness Program may be able to change all that. From early morning till late at night, the very popular fitness classes are once again being offered by the Department of Athletic Services. Under the direction of the Art Burgess (aka Mr. Fitness), there are classes for everyone.

Three early morning classes will be held this fall: Early Birds, Dawn's Early Dancers, and Early Yoga. And early they are! Start your twice weekly class at 6:45 a.m., and "end up alert and ready for anything at 7:30."

For those who are not "morning people," both noon-hour and after work classes are available. A multi-level class in yoga; T'ai Chi, the ancient

Chinese system of exercise; and the ever popular aerobic dance are all available at regularly scheduled noon hour times. A more traditional "noon workout" of calisthenics, aerobic jogging, weight and circuit training is also available over the lunch break.

For those with energy left over after a busy day, the Rush Hour Quickie may be just the answer. Like the noon workout, the quickie involves a variety of exercises, and is guaranteed "not to reduce the beginner to a basket case." Dance fans can take part in Rush Hour Aerobics, a repeat of one of the popular noon hour programs.

Morning, noon, and after work...and yet the programs offered don't stop there. Evening Exercises, for those with the truly "full" day-time schedule, offers a twice-weekly combination of

exercise to music, light jogging, and circuit training. And, for those whose youngsters are enrolled in Saturday morning gymnastics and swimming at the University, the Saturday Special offers a "while you wait" exercise program.

Don't stop yet! The courses go on and on: pre-ski conditioning, keeping your back healthy, adult ice skating, weight control, Operation Kick-It... the course offerings are seemingly endless. The fall programs start in the

first week of October. Most run for twenty lessons (ten weeks); some are of shorter duration.

Application forms may be obtained by contacting the Staff Fitness Programs, W1-34, Physical Education Complex, or be telephoning 432-5607 or 432-5705.

So, whatever your pleasure, whatever your pain, be sure to sign up early for your fall fitness program. Your body will thank you profusely for it. □

World Premier Set for Convocation Hall

According to the files, Violet Archer retired in 1978. Retirement means different things to different people, however, and in the case of Violet Archer it would appear to mean nought but severing the formal tie she has had with the University's Department of Music since 1962. For Violet Archer has certainly not retired; indeed, evidence of her continuing influence on the international scene will be apparent on 1 October, when The University of Alberta String Quartet premieres her most recent work, "String Quartet No. 3."

Commissioned by the CBC in 1981 as its way of honoring the University's 75th Anniversary, "String Quartet No. 3" will be the highlight of a musical evening at Convocation Hall. The work is in three movements; according to Miss Archer, the movements are "contrasted as to mood and subject matter, though all is derived from the opening theme of the first movement, which is

vigorous with much contrast of texture and dynamics." And, according to Michael Bowie, violist with The University of Alberta String Quartet, the work is "really quite wonderful, quite exciting."

Significantly, the premier of Miss Archer's composition coincides with International Music Day, an event that she has helped organize. Sponsored by the Canadian Music Council, the day will be celebrated around the world by performances of both new and old music by composers of many countries.

The special concert to be given by the String Quartet begins in Convocation Hall at 8 p.m. In addition to Miss Archer's work, the Quartet will perform the "String Fantasies Nos. 6 and 10," by Purcell; and Haydn's "String Quartet in D, Op. 71, No. 2." Tickets are not required for the concert, an everyone is encouraged to attend. □

Edmonton Education Office Established

Wally Serediak, Education Coordinator for the Department of Education, Northwest Territories, has established an office in 346 Assiniboia Hall (telephone 432-4445). The Edmonton Education Office provides liaison between high schools in the Northwest Territories, the Department of Economic Development Apprenticeship Program, the Department of Social Services, and post-secondary institutions in southern Canada.

In addition to processing application for grants and bursaries to residents of the NWT to enable their attendance in courses of study at approved post-secondary institutions, Mr. Serediak is responsible for informing and assisting NWT students to more effectively use

community and school support services. The care, accommodation, and schooling of students requiring special educational programs in Alberta and Saskatchewan (such as placement at the Alberta or Saskatchewan School for the Deaf, etc.) also falls under the mandate of this office.

During 1980-82, the Edmonton Education Office of the Northwest Territories processed the registration of close to two hundred university students each year, of whom approximately half attended The University of Alberta. University of Alberta students from the NWT should benefit from the immediate proximity of this office and faculty are encouraged to refer to the office when concerns may arise related to NWT students. □

Aftermath of the Hold-up

I wish to correct a possible misconception arising from the article on the hold-up of the Comptroller's Office in the 16 September issue of *Folio*. Our assurance to students that their fees will be noted as paid in our records will apply only in those cases where cash was received which was stolen subsequently in

the robbery. This theft will be covered under our insurance policy and these students will be held harmless.

However, this office will write students shortly who had given us cheques in payment of fees last week which were lost through the theft. We will advise the affected students by letter as to the action

they should take in settling their fee accounts with replacement cheques. I sincerely regret any inconvenience which this procedure will cause our students. I earnestly solicit their cooperation in helping us through this difficult period.

For the record, I would like to acknowledge the calm behavior displayed by staff and students when confronted by the two armed men which no doubt influenced the safe turn of events.*□

**The preceding statement was written by A.S. Knowler, Comptroller.*

New Locker Rooms

The Be All and End All

With the opening of the new locker rooms and single equipment room earlier this week, the following regulations are in effect.

Locker rooms are restricted to holders of current user cards. These include all University students in possession of a valid student I.D. card, all AASUA members holding a current membership card, and alumni, staff, NASA employees, families, and special card holders who

have purchased privilege cards.

Lockers are available on a semi-annual or annual basis to staff and students with user cards. Students will pay a \$15 fee with \$10 refundable. All others will pay a \$10 non-refundable fee. A fee of \$25 will be charged for the loss of a plastic wrist band. A fee of \$5 will be charged for the loss of a combination lock. A fee of \$5 will be charged for the loss of a towel or towel token.

Swimming Pools, Weight Rooms, Courts, and Other Recreational Areas

Recreation users must exchange their user cards for plastic wrist bands. Participants not wearing

this band will be requested to leave. Children are restricted to the use of the pools and the ice arena.

Squash, Racquetball, and Handball Court Bookings

Reservations are made in the Equipment Room from 0730 to 0830 and 1200 to 1300 hours, normally one or two days in advance.

Current user cards must be presented when making the bookings.

Prior to playing, individual user cards must be exchanged for plastic wrist bands.*□

**The preceding information was issued by the Office of the Dean, Physical Education and Recreation.*

Symposium on Human Evolution

A Symposium on Human Evolution over the past 5,000,000 years will be held on

4 and 5 October, from 9:00 a.m. each day in the **Students' Union Building Theatre** of The University of Alberta.

The symposium will feature renowned experts from around the world; from Canada, the United States, Indonesia, the Republic of South Africa, and the People's Republic of China. Topics to be discussed will include Peking and Java Man, Hominid Evolution in Africa, the Human Brain, and the Evolution of Human Behaviour.

The public is invited to attend.

Tickets are \$10 each. Order your tickets now by telephoning 432-5145 or send cheques payable to:

SUB Ticket Centre
Students' Union Building
The University of Alberta
Edmonton, Alberta
T6G 2J7

(For further information about the symposium or about other 75th Anniversary events, telephone the Office of Community Relations, 432-2325.)

Wherewithal for Writers Available From Alberta Culture

Alberta writers are encouraged to apply for financial assistance to Alberta Culture, Film and Literary Arts. Grants are available to novice, advanced, and senior Alberta writers to assist in the development of works of fiction, non-fiction, poetry, playwriting, and film and television scriptwriting.

The grant structure is as follows: Up to \$2,500 for novice writers who have demonstrated an aptitude for creative writing as supported by two letters of recommendation; up to \$10,000 for advanced writers who have had at least one book published by a nationally recognized publisher or at least 25,000 words published in periodicals of literary or general interest (the equivalent for play and scriptwriters); over \$10,000 to senior writers who have had three or more books published by a nationally recognized publisher (the equivalent for play and scriptwriters).

Applicants will be considered

on the merit of their proposed project and literary work to date. They must be Canadian citizens or landed immigrants eighteen years of age or older, and resident in Alberta twelve of the past eighteen months.

Grant applications require a detailed project description and budget, including costs for research, travel, and subsistence. Other sources of revenue must be indicated as these grants are not intended to cover the full cost of literary projects. Advanced and senior writer's grant applications will be submitted to an independent jury for adjudication.

The deadlines for applications are 15 October 1982 (advanced and senior writers), and 31 December 1982 (novice writers). For application forms or more information contact: Alberta Culture, Film and Literary Arts, 12th Floor, CN Tower, 10004-104 Avenue, Edmonton, Alberta T5J 0K5 or telephone 427-2554.□

New Books Available from Longspoon Press

The "little press" is little no longer. As the Longspoon Press moves into its third year, it does so with a publications list which includes some sixteen books of Canadian poetry. Begun as a press for poets, it was established by three members of the Department of English as an alternative to larger, money-making publishing companies which hesitate to produce poetry books because of the low profit margin from sales.

"Ours is a non-profit organization," says Douglas Barbour, one of the founding members of the Press. "Whatever money we make from the sale of books is put right back into the Press. That's the only way for a small press to survive."

Longspoon is certainly a survivor. With grants from the Senate's Emil Skarin Fund, the Canada Council, Alberta Culture, and the University's Endowment Fund for the Future to back it, the Press has far surpassed its founders' original expectations. Last year it published eight books. Of the eight, one has already been incorporated into the curriculum of two Canadian universities. *Writing right: Poetry by Canadian Women* is an anthology of new poems in a variety of voices and forms, and includes works by both established writers and relative newcomers.

Several of the books published by the Press last year are by unknown writers. "Part of our

mandate is to help support new poets," Dr. Barbour explains. "It's quite exciting to have a new writer come out of nowhere with a really good manuscript." But the new writers are not the money-makers and so the Press relies on works by the more established poets for financial support. "We have high hopes for the anthology," says Dr. Barbour. "It's an excellent book and we hope that its sales will help support the Press through its next year."

A new member of the Longspoon Press is Paul Hjartarson, also new to the Department of English. A specialist in contemporary poetry, he joins Dr. Barbour and Shirley Neuman as English faculty associated with the Press. Stephen Scobie, a founding member of Longspoon, continues on the staff of the Press from the University of Victoria where he currently teaches English.

Order forms for books published by the Longspoon Press may be obtained from the Department of English, 3-5 Humanities Centre, telephone 432-2180. □

Notice to Staff, Taxable Benefits

The budget changes announced by the federal government have resulted in additional staff benefits that were previously tax exempt becoming taxable.

This means that premiums paid on your behalf by the University of Supplementary Health Care (Academic Staff) and Dental Insurance must now be reported as a taxable benefit. (Alberta Health Care premiums and Life Insurance premiums in excess of \$25,000 coverage were already taxable, however, not taxed at source.)

Interest free and low interest loans will become taxable in 1983 and 1984 on a phased-in basis where applicable.

Effective 1 September 1982, changes have been made to take these items into consideration in the calculation of your monthly cheques. Also, deductions for the remaining months of 1982 will include adjustments for the months of January to August, 1982.

The current premium rates of taxable benefits are as follows:

Academic	Single	Family
Alberta Health Care	9.50	19.00
Supplementary Health Care — Full time	7.50	22.50
Supplementary Health Care — Temporary	5.00	15.00
Dental — Full-time	14.50	43.50
Dental — Temporary	8.00	21.00
Life Insurance — Amounts of coverage in excess of \$25,000 at \$.13 per \$1,000.		
Non-academic		
Alberta Health Care	4.75	9.50
Dental — Full-time	11.13	28.54
Dental — Temporary	4.81	11.14
Life Insurance — Amounts of coverage in excess of \$25,000 at \$.166 per \$1,000.		

Schaible, S. (Business) and Ziemba, W.T.: *Generalized concavity in optimization and economics*. Academic Press, New York.

Sperber, Geoffrey H. (Dentistry) and Skinner, Mark F.: *Atlas of Radiographs of Early Man*. Alan R. Liss, Inc., New York. 350 p.

service information

All information to be included in this column must reach the Office of Community Relations by 9 a.m. the Thursday prior to publication.

Coming Events Exhibitions

Ring House Gallery

Until 3 October "O! Osiris, Live Forever!" An exhibition on the scientific investigation of mummification. The exhibit is jointly organized by University Collections and Manchester University Museum, England.

Special Collections

Until 1 October: "Pulps, Paperbacks and Popular Fiction." A visual history of the mass marketing of literature from Dickens to Lawrence using pictorial covers, dust jackets, and other material from Special Collections.

UNESCO Publications

Until 1 October. Some 300 titles including reference works, books, periodicals, scientific maps, and information documents will be displayed in Rutherford Library North, second floor entrance.

Lectures and Seminars

Behavioural Science

24 September. Mihaly Csikszentmihalyi, Chairman of the Committee on Human Development, Department of Behavioural Science, University of Chicago, will discuss "Creation and Recreation." 2 p.m., 129 Education North. For further information, call 432-5171.

The Canadian Institute of Ukrainian Studies

24 September, 7:30 p.m. John-Paul Himka will present a lecture entitled "The Awakening Village: Peasantry in Easter Galicia After 1848." Heritage Lounge, Athabasca Hall.

Department of Zoology

24 September, 3:30 p.m. A.O.D. Willows, Department of Zoology, University of Washington, and Friday Harbor Laboratories, will speak on "Neurons and peptides controlling molluscan feeding

publications

Barbour, Douglas (English) and Stanley, Marni, eds.: *Writing Right: Poetry by Canadian Women*. Longspoon Press, Edmonton, 1982, 192 p.

Page, Norman (English) (ed.): *Nabokov: The Critical Heritage* (London: Routledge & Kegan Paul, 1982). — 'The English Language: Tradition and Innovation', in *The New Pelican Guide to English Literature, 5: From Blake to Byron* (Harmondsworth: Penguin Books, 1982), pp. 139-53.

behavior." CW410 Biological Sciences Building.

29 September, 4 p.m. Peter K.T. Pang, Texas Tech, University Health Sciences Center, Lubbock, Texas, will speak on "Vascular Actions of Selected Peptides." CW410 Biological Sciences Building.

30 September, 2 p.m. Peter K.T. Pang, Texas Tech, will present a lecture entitled, "Evolution of Neural and Hormonal Control of Renal Functions." CW410 Biological Sciences Building.

1 October, 3:30 p.m. William C. Mackay, Department of Zoology, University of Alberta, will present a seminar entitled, "Environmental influences on the growth of a top aquatic carnivore, the pike." 345 Earth Sciences Building.

Department of Classics

24 September, 3:30 p.m. John Hayes of the Royal Ontario Museum will speak on "Roman pottery as evidence for the Roman economy." 1-8 Humanities Centre.

6 October, 3:30 p.m. Elaine Fantham of the University of Toronto will present, "Ill. Hist. Comedy; Root of Evil (Horace *Odes* 3.1, 16 and 24; *Satires* 2.3)." 1-8 Humanities Centre.

Headache Treatment

27 September. "Advances in Headache Treatment: a psychological perspective" will be presented by Edward Blanchard at 1:30 p.m. in 1-109 Education North.

Department of Germanic Languages

27 September, 8 p.m. Jurgen Eichhoff, University of Wisconsin at Madison, will present a public lecture with slides on, "Two German States — Two German Languages?" B-87 Tory Building.

Amnesty International

28 September. "What is new in Amnesty?" A panel discussion arranged by the local branch of Amnesty International will be held at noon in 14-6 H.M. Tory Building. For additional information, phone Alexander J. Matejko at 432-3384 or 432-5234.

Department of Slavic and East European Studies

28 September, 3:30 p.m. Ya. M. Rabkin, Institute d'histoire et de Sociopolitique des Sciences, Université de Montréal, will present a seminar entitled, "Science under Detente: A History of Soviet-Western Scientific Exchanges." 311 Athabasca Hall.

4 October, 11 a.m. John Mersereau, Jr., Director of the Residential College at the University of Michigan, will speak on "The Residence College and Liberal Arts Education." 6-40 Humanities Centre.

4 October, 3 p.m. Dr. Mersereau will speak on "Distinctive Features of Russian Romantic and Realist Fiction." 776 General Services Building.

Science Dining Club

28 September, 6 p.m. L. Wang, Department of Zoology, will speak on "Getting Away From It All: Mammalian Hibernation." Faculty Club. For reservations, phone Donna Arbuthnott, 432-5072. Guests are welcome.

Department of Entomology

30 September, 4:30 p.m. Mark Goettel will

present a seminar on "Prospects of using fungi for control of mosquito larvae in Alberta." 245 Earth Sciences Building.

Ring House Gallery

30 September, 7:30 p.m. Stuart Fleming, Scientific Director of the Museum Applied Science Centre for Archaeology, University of Pennsylvania will speak on "The Egyptian Mummy: Secrets and Science." 2-115 Education North.

1 October, 7:30 p.m. Rosalie David, Keeper of Egyptology at the Manchester Museum, England, and Director of the Manchester Egyptian Mummy Project will speak on "Current Research on Ancient Village Material from Kahun." 2-115 Education North.

Provincial Laboratory of Public Health

30 September and 1 October, 3 p.m. Leo Kaufman, Chief, Fungus Immunology Laboratory Centres for Disease Control, Atlanta, Georgia, will present the following two lectures: **30 September**, Dr. Kaufman will speak on "Immuno-diagnosis of Blastomycosis, Coccidioidomycosis and Histoplasmosis Including Immunoidentification of Etiological Agents." 2-27 Medical Sciences Building. **1 October**, he will speak on "Immuno-diagnosis of the 'Opportunistic' Mycotic Infections." 2-27 Medical Sciences Building.

The Walter C. MacKenzie Lectureship 1982

5 and 6 October, 4 p.m. Ephraim Katchalski-Katzir, Department of Biophysics, Weizmann Institute of Science, Rehovot, Israel, will present two lectures under the theme "Enzyme Engineering — Achievements and Challenges." 2-115 Education North.

SUB Theatre

Films

27 September, 8 p.m. "Reds."

28 September, 8 p.m. "Gallipoli."

29 September, 8 p.m. "Neighbors."

Folk Dance

The Edmonton International Folk Dance Club offers folk dance instruction for both beginning and experienced dancers every Friday at 8 p.m. in W-14 Physical Education Building.

Non-Credit Courses

Faculty of Extension

Gentle Stretch for Better Health

Date: 2 October. **Fee:** \$40. **Telephone:** 432-2015. An introduction to the concept and practice of exercise through physical movements to suit individual needs.

Hatha Yoga Practice and Philosophy

Date: 15, 16, 17 October. **Fee:** \$100. **Telephone:** 432-2015. This is an advanced level course.

Should I Buy This House?

Date: Starts 6 October. **Fee:** \$30 single/\$40 couple. This short course is designed with the first-time home buyer in mind, and consists of four classes covering house characteristics,

construction details, financial and legal aspects of a home purchase. For more information, telephone 432-5060.

Devonian Botanic Garden

Classes located at Botanic Garden. Phone 987-3054 for information and registration.

Nature Photography

Date: 25 September. **Fee:** \$30. Explore 35mm color photography of natural forms. Discussions of color, composition and lighting precede photo sessions in the Garden.

Computing Services

Client Training Sessions

Computing Services is taking registrations between 8:30 a.m. and noon for the following non-credit courses. For further information, please telephone Information Services at 432-2463, or come to 352 General Services Building.

Introduction to Computing at The University of Alberta

Course number: 765. **Date:** 27 September. **Time:** 11 a.m. to 1 p.m. **Fee:** \$10. **Prerequisites:** No previous computing experience, but familiarity with a keyboard is required. **Place:** 351 GSB.

MTS and Editor Fundamentals

Course number: 786. **Date:** 29 September and 1 October. **Time:** 11 a.m. to 1 p.m. **Fee:** \$15. **Prerequisites:** "Introduction to Computing" or equivalent working knowledge of a DECwriter terminal and the MTS system. **Place:** 351 GSB.

MTS Overview

Course number: 818. **Date:** 28, 30 September. **Time:** 10 a.m. to noon. **Fee:** \$15. **Prerequisites:** "MTS and Editor Fundamentals." **Place:** 749A/327 GSB.

Data Preparation for Statistical Packages

Course number: 852. **Date:** 27 September. **Time:** 1 to 4 p.m. **Fee:** \$5. **Prerequisites:** "MTS and Editor Fundamentals." **Place:** 749A GSB.

Introduction to the SPSS Control Language

Course number: 856. **Date:** 29 September and 6 October. **Time:** 1 to 4 p.m. and 2 to 4 p.m. respectively. **Fee:** \$5. **Prerequisites:** "Data Preparation for Statistical Packages" is recommended; "Introduction to Computing" or a working knowledge of MTS is required. **Place:** 749A/351 GSB.

Notices

Selection and Review Committee Vacancies

The GFC Nominating Committee is seeking nominations to fill vacancies for one faculty member, not a member of the department concerned, to serve on each of the following committees: Selection Committee for Chairman, Department of Industrial and Vocational Education, Review Committee for Chairman, Department of Educational Psychology, Review Committee for

Chairman, Department of Secondary Education, and Review Committee for Chairman, Department of Immunology.

Would those persons interested in serving on any of the above committees, or those who have suggestions for nominees, please contact the Secretary of the Nominating Committee at 2-1 University Hall (432-4715). It would be helpful if a brief vita of four or five lines could accompany any nomination.

University Professorships

Members of the University community wishing to make nominations for University Professorships are asked to submit their nominations, in the first instance, to D. Ross, Chairman of the University Professorship Selection Committee, no later than 14 October 1982.

Persons considering making nominations should initially study the criteria and guidelines laid down in the Report on University Professorships approved by GFC on 30 November 1981 and by the Board of Governors on 5 March 1982. Copies of this Report can be obtained from P.M. Plaskitt, 2-1 University Hall.

Chairman, Department of Rural Economy

A Selection Committee is being established to select a Chairman for the Department of Rural Economy, Faculty of Agriculture and Forestry, with the appointment to become effective 1 July 1983. Anyone interested in further information, please contact Dean Bowland, Chairman of the Selection Committee, telephone 432-4931, by 15 October 1982.

Library Hours

One change has been made to the Library Hours Winter Session 1982-83 schedule which appeared in *Folio* on 9 September. The Computing Sciences Reading Room will be open from 1 to 5 p.m. Monday to Friday, rather than from 1 to 4 p.m.

Computing Services

Faculty members interested in developing computer based learning materials on the PLATO System can request support for their efforts from the Instructional Systems Group of Computing Services.

Those interested should indicate their intent by completing a proposal which will be reviewed by the PLATO Advisory Committee composed of Faculty users of PLATO. Successful applicants will receive training, consultative support, and programming resources to develop learning materials on the PLATO System.

For copies of the information required and assistance in completing the proposal, contact Michael Szabo or Peter Johnston at 432-2611. The due date for fall submissions is 20 October.

Edmonton Gregorian Chant Choir

We are reorganizing for the new academic year and welcome new members. If you enjoy Gregorian Chant, come sing with us — no experience necessary! Meetings are Monday evenings at 7 p.m. in 1-15 Rutherford Library South. For more information, call St. Joseph's College, 433-1569.

Revision Planned

A.D. Ridge, Provincial Archivist of Alberta, has announced that plans are underway to update the *List of Records Agents and Researchers* compiled by the Provincial Archives of Alberta. The List, designed to assist archival repositories and libraries in need of major research assistance, includes the names of groups and individuals capable of helping with lengthy research projects.

Mr. Ridge advises that anyone interested in having their name included in the updated List should contact the Provincial Archives at 12845 102 Avenue, before the middle of October.

The Roaring Game

The Faculty Curling League is accepting application for the upcoming season. Curling will take place Tuesdays at 5 p.m. at the Royal Glenora. All levels of curling expertise are welcome. Contact Greg Morrison, 432-2206, or Allan Sarafinchan, 432-2203 for entry forms or further details. Curling begins 12 October.

Scholarships, Fellowships and Awards

Canadian National Sportsmen's Fund Postdoctoral Fellowship

Donor: Canadian National Sportsmen's Fund. **Where tenable:** Ordinarily expected that the Fellowship will be held at an institution other than the one at which the PhD is obtained. **Level:** Postdoctoral. **Field:** Research relevant to the objectives of the Fund (improved understanding and better management of Canadian wildlife and its habitat). **Value:** \$18,700 to holder and \$9,350 to university in support of holder's research. **Number:** Not specified. **Duration:** Twelve-month period. Payment initiated on notification by the head of the department that the recipient has begun work. **Conditions:** Canadian citizens or landed immigrants who have completed or will complete PhD degree by 31 December of the year following application. **Closing date:** 1 November 1982. **Further information and application forms should be requested from:** Canadian National Sportsmen's Fund, Box 168, Toronto-Dominion Centre, Toronto, Ontario M5K 1H8.

Canadian National Sportsmen's Fund Conservation Scholarship

Donor: Canadian National Sportsmen's Fund. **Where Tenable:** At a Canadian university. **Level:** Doctoral. **Field:** Studies relevant to the conservation and management of wildlife and its habitat. **Value:** \$11,000. **Number:** Not specified. **Duration:** One year beginning 1 September. Renewable for two further years. **Conditions:** Canadian citizens and landed immigrants; considerable weight given to applicants' commitment to a career of study or other work in the area of conservation; no other major academic award or payment for services may be accepted during the year in which the scholarship is held. **Closing date:** 1 November 1982. **Further information and application forms should be requested from:** Canadian National Sportsmen's Fund, Box 168, Toronto-Dominion Centre, Toronto, Ontario M5K 1H8.

Mellon Fellowships in the Humanities

Donor: The Woodrow Wilson National Fellowship Foundation. **Where tenable:** Canada and the United States. **Level:** Graduate. **Field:** Traditional humanities disciplines, including history, but not the creative and performing arts. American studies, other area studies, and interdisciplinary programs are also eligible if the emphasis in subject and method is substantially humanities. **Value:** \$7,000 plus payment of tuition and standard fees. **Number:** 100-125. **Duration:** One year. May be renewed for a second year. **Conditions:** Any college senior or recent graduate who is a U.S. or Canadian citizen, can present evidence of outstanding academic promise, and wishes to begin graduate work in preparation for a career of teaching and scholarship in a humanistic field of study is eligible for consideration. May not accept other awards or assistantships. **Closing date:** Nomination Deadline: 5 November 1982. Application Deadline: 10 December 1982. **Further Information:** Candidacy must be initiated by a nomination from a faculty member addressed to the program's appropriate Regional Chairman. Contact the Student Awards Office, 252 Athabasca Hall, The University of Alberta, Edmonton, Alberta T6G 2E8.

Siobhan Isabella Reid Memorial Scholarship

The scholarship, for the 1982-83 university year will be presented to a full-time student attending an Alberta university. The amount of the scholarship, \$1,500, will be awarded to a student enrolled in a program which will lead to that individual being able to assist children and adults with learning disabilities. The student may be enrolled in any faculty of any university within Alberta.

The scholarship will be awarded by the Alberta Association for Children and Adults With Learning Disabilities.

The deadline for scholarship applications is 30 September 1982. Further information may be obtained from the Office of Student Affairs, telephone 432-4145.

Positions Vacant

Non-Academic Positions

To obtain further information on the following positions, please contact *Personnel Services and Staff Relations*, 2-40 Assiniboia Hall, telephone 432-5201. Please do not contact the department directly. As positions are filled on an ongoing basis, these vacancies cannot be guaranteed beyond 17 September 1982.

FOLIO

75th Anniversary Special Edition

Telling it Like it Was

The seats in the Students' Union Building Theatre are comfortable but audiences at the Symposium on Human Evolution may well prefer the edges to the backs. Five million years of human evolution will be expounded on by six of the world's leading authorities, a combination that could render the adjective "spellbinding" meaningless.

On 4 October at 9 a.m., following opening remarks by Symposium Chairman G.H. Sperber and greetings from President Horowitz, H.B.S. Cooke, Carnegie Professor of Geology (Emeritus), Dalhousie University, will discuss "The Geological Framework."

The next speaker, Phillip B. Tobias, is Dean of the Faculty of Medicine and Head of the Anatomy Department at the University of Witwatersrand, Johannesburg. In his presentation, "Hominid Evolution in Africa," he will concentrate on the middle period of 4.0-1.0 million years B.P. (before the present).

At 1:30 p.m. Teuku Jacob, Rector and Professor of Anthropology, Gadjah Mada University, Yogyakarta, Indonesia, will speak on "Early Man in Indonesia."

Wu Rukang, Deputy Director and Research Professor, Institute of Vertebrate Palaeontology and Palaeoanthropology, Beijing, People's Republic of China, will lecture at 3:30 p.m. on "Hominid Fossils From China and Their Bearing on Human Evolution."

At 10:30 a.m. on 5 October Ralph Holloway, Chairman and Professor, Department of Anthropology, Columbia University, will discuss "New Evidence from Hominid Brain Endocasts."

The sixth participant is Glynn Isaac, Professor of Anthropology at the University of California (Berkeley), and Director of the Foundation for Research into the Origin of Man.

His 1:30 p.m. lecture on "The Evolution of Human Behavior" will deal with early stone tools, discussing what was involved in their manufacture and, more importantly, what part they

played in adaption.

The symposium, made possible in part with the cooperation of Air Canada, Canadian Pacific Airline, Pacific Western Airlines, the Westin Hotel, and the

Canadian Society of Petroleum Geologists, is open to the public. Tickets are \$10 and can be purchased at the SUB ticket centre, telephone 432-5145. □

ADVANCED EDUCATION
AND MANPOWER

130 Legislature Building, Edmonton, Alberta, Canada T5K 2B6 403/427-2291

Office of the Minister
Deputy Government House Leader

Mr. John L. Schlosser
Chairman
Board of Governors
University of Alberta
Edmonton, Alberta
T6G 2E1

Dear Mr. Schlosser:

In a province as young as Alberta, 75 years is a formidable history. And while it is useful to look back and reflect upon the past, it is equally important to look forward and anticipate the future.

The University of Alberta will rise to the challenge of the future, as it has done in the past, for as the fabric of Alberta has changed during the past 75 years, so has the fabric of the province's oldest university.

By celebrating this 75th anniversary, we recognize all of the people who have contributed to the success and reputation of the University of Alberta. People like the university's founder Alexander Rutherford, the chancellors, the various presidents, faculty members, administration and support staff.

But perhaps most important of all we recognize the thousands upon thousands of students who have graduated and used their knowledge to make this a better city, a better province, a better country and a better world in which to live.

The Premier and I, my colleagues in cabinet and caucus, and the citizens of Alberta extend to the University of Alberta our congratulations on its 75th anniversary.

James D. Horsman
Minister

75th Anniversary Views

*Henry Kreisel, University
Professor*

"In a sense, it's time to take stock, a time to marshall the information that's available and put it into perspective. Special anniversaries like our 75th are benchmarks, points in time that allow us to pause and look back. Very often when you do that you see the shape of things more clearly. Something else. The University has grown so big that it's quite possible for people to spend all their time within their own department and lose sight of the University as a whole. Special celebrations help the University reveal itself to its own people... and that's very important. We should probably do that more often."

Shirley Meyer, Secretary, Library

"Well, it's a real milestone for the University. If you compare the University when it started and the way it's grown, it's really quite amazing. And I guess there's much more growing to do. It's a wonderful place to work, the people and the atmosphere are tremendous."

Jim Parker, Archivist

"The 50th Anniversary of the University (in 1958) was a turning point for us. It was a time to look back, and to look ahead. I think that the 75th will be the same. It's a time to reassess our goals and objectives and for that reason alone it will be a landmark year."

*Fern Campbell,
Telecommunications Manager*

"In my business, seventy-five years means change, a lot of change. We are constantly upgrading our telecommunications system here at the University in an effort to keep up with trends in the industry. Seventy-five years ago we relied on a little crank phone

The Office of Community Relations takes pleasure in publishing this special edition of Folio. Here is what some of the University's people had to say about the 75th and its profusion of scholarly and cultural events.

on the wall. Now we have a sophisticated, integrated system."

*Robert Greenhill, Students'
Union President*

"For the past seventy-five years The University of Alberta has been a focal point for the change and growth in this province. If University funding receives in the future the same priority as it has in the past, our institution will remain one of the finest in the country, and we can celebrate our University's 75th Anniversary with pride."

Lorne Gunter, Registrar's Office

"I'm relatively new to the campus (three years) and so it's all very interesting for me because I'm learning a lot about the history of the place — a lot that I didn't know before."

Peter Savaryn, Chancellor

"Education is crucial to the quality of life. In fact, you could say it is crucial to the survival of western civilization. Our 75th Anniversary presents us with the

opportunity of taking a fresh look at ourselves, of reviewing the kind of job that we've been doing, and of planning for the future."

*Gordon Fearn, President,
AASUA*

"Anniversaries are moments in time for giving thanks to those who made this University possible. The 75th Anniversary is also an opportunity, in the richness of history, to launch new dreams. Knowledge is vital for helping us recognize how choices made today will delimit what is possible tomorrow. And anniversaries, likely as they are to recur, prod us to forever review our search for a durable future, and for using what we now have in life-giving ways."

*Gail Brown, Director, Housing
and Food Services*

"Well, three things come to mind. The first is work! The second is amazement: I've only been here for four years, and it's hard to adjust to the fact that the University has been here for seventy-five. And the third is fun:

we're getting ready for three anniversary dinners. Going for four... we're also planning the gala opening of the Garneau Student Housing."

Myer Horowitz, President

"The celebrations will enable us not only to focus on our present accomplishments, but also to look back with gratitude to the many key people, from Premier Rutherford to President Tory on, who helped to shape this institution. The challenge now is to plan for the future with optimism and with vision."

*John Schlosser, Chairman,
Board of Governors*

"The 75th will underline the importance of the University in the fabric of the community."

*Doug Burns, Chairman, 75th
Anniversary Committee*

"The anniversary is your University's celebration. To make it truly successful will require your active participation and support." □

75th Anniversary Calendar of Events

September 1982

30 September

Lecture: "The Egyptian Mummy: Secrets and Science" by Stuart Fleming, Scientific Director of the Museum Applied Science Centre for Archaeology, University of Pennsylvania. 2-115 Education North, 7:30 p.m.

October 1982

1 October

Lecture: "Current Research on Ancient Village Material from Kahun" by Rosalie David, Keeper of Egyptology at The Manchester Museum, England; and Director of the Manchester Egyptian Mummy Project. 2-115 Education North, 7:30 p.m.

The Haydn Display

A display of material illustrating the life and works of the famous composer Franz Joseph Haydn. Rutherford Library Galleria. Admission: free.

Historical Displays

A variety of historical displays in the Ring House Gallery and the Students' Union Building, from October to February, 1983. Admission: free.

1 October

Violet Archer Musical Work, University of Alberta String Quartet. Convocation Hall, 8 p.m. Admission: free.

2-3 October

Faculty Open Houses: Pharmacy and Pharmaceutical Sciences.

1-3 October

Alumni Homecoming and 75th Anniversary Scholarship announcement.

2 October

Release of 75th Anniversary Pictorial History of the University.

4-5 October

International Symposium on "Human Evolution." SUB Theatre. Admission: \$10 (tickets available through SUB Box Office).

5-6 October

The Killam Trustees Conference. Admission: by invitation.

14 October

Official Opening of German Poster Art and J.D. Turner. Ring House Gallery, 8 p.m.

14-16 October

Faculty Open Houses: Business, Agriculture and Forestry, Home Economics.

14-16 October

Canadian Society for Eighteenth Century Studies meeting.

15 October

Opening of the Walter C. MacKenzie Health Sciences Centre. Admission: by invitation.

15-16 October

WECOL/ACOL Linguistics Conference. Admission: free.

15-24 October

Exhibit of German Poster Art. Produced especially for Canada

at the request of the Goethe Institute, Berlin, and circulated by the International Program, National Museums of Canada. Ring House Gallery.

15-26 October

J.D. Turner. Organized by the Ring House Gallery in conjunction with J.D. Turner's autobiography, published by the University Press.

17 October

Evensong. All Saints' Cathedral.

25 October

National University Hockey Tournament. Varsity Arena.

28 October

Official opening of the Percy Erskine Nobbs Exhibition. Ring House Gallery, 8 p.m.

29 October

Lecture: "Percy Erskine Nobbs: Architect, Artist, Craftsman" by Susan Wagg, Montreal-based art historian and curator of the Percy Nobbs exhibition. B-95 H.M. Tory Building, 2:30 p.m.

29 October

Jazz Concert. SUB Theatre, 8 p.m. Admission: free.

29-30 October

Celebrations: A tribute to Henry Kreisel. With Eli Mandel, Henry Beissel, and Robin Mathews. Humanities Centre. Admission: free.

29 October - 21 November

Percy Erskine Nobbs. An exhibition of architectural plans, renderings and paintings, including the original plans for The University of Alberta, by

Percy Nobbs (1875-1964). Ring House Gallery.

November 1982

The Stravinsky Display

Materials illustrating the genius of the Russian composer, Igor Stravinsky. Rutherford Library Galleria. Admission: free.

To 21 November

Percy Erskine Nobbs Exhibition. Ring House Gallery.

4-6 November

Faculty Open Houses: Rehabilitation Medicine, Dentistry, Medicine.

8 November

Stravinsky/Haydn Program, Department of Music. Convocation Hall, 8 p.m. Admission: free.

12-13 November

Celebrations: Poets-in-Residence at the University: Gary Geddes, Tom Wayman, Phyllis Webb, and Pat Lane. Humanities Centre. Admission: free.

20 November

Fall Convocation. Northern Alberta Jubilee Auditorium, 2 p.m.

25 November

Official Opening of the World Print III and Elsie Johnson: MVA Exhibitions. Ring House Gallery, 8 p.m.

26 November - 19 December

World Print III Exhibition. Organized by the World Print Council, the California College of Arts and Crafts, and Osaka University of Arts. Circulated by the Smithsonian Travelling

Exhibitions Service. Ring House Gallery.

26 November - 7 December
Elsie Johnson: MVA Exhibition.

29 November - 5 December
Canada Cup Invitational Volleyball Tournament. Main Gym. (Pre-Universiade event).

December 1982

To 7 December
Elsie Johnson: MVA Exhibition. Ring House Gallery.

3-4 December
Celebrations: The legacy of E.K. Broadus and F.M. Salter. With Lovat Dickson, W.O. Mitchell, Robert Kroetsch, and Rudy Wiebe. Humanities Centre. Admission: free.

3-5 December
Faculty Open Houses: Arts, Extension, Law, Library Science.

10 December
Official Opening of **Rebecca Aronyk: MVA Exhibition.** Ring House Gallery, 8 p.m.

12-19 December
Rebecca Aronyk: MVA Exhibition. Ring House Gallery.

28-30 December
Klondike International Basketball Classic. Main Gym.

January 1983

15-16 January
Celebrations: The rising generation. With Aritha van

Herk, Monty Reid, Katherine Govier, Steve Hume, Caterina LoVerso, Lorna Uher, Bryan Moon, Allan Shute, Leona Gom. Humanities Centre. Admission: free.

February 1983 *The Brahms Library Display*

To coincide with the 150th anniversary of the birth of Johannes Brahms, materials relating to the works and life of the composer. Rutherford Library Galleria. Admission: free.

9 February
Concord String Quartet. Convocation Hall, 8 p.m.

11-12 February
Celebrations: The Class of '69 with Elizabeth Brewster, Margaret Atwood, Stephen Scobie, Sheila Watson, Wilfred Watson, Dorothy Livesay. Humanities Centre. Admission: free.

14-19 February
Symposium on Science and Religion.

16 February
Brahms' German Requiem, Richard Eaton Singers. Jubilee Auditorium, 8 p.m.

18-20 February
Faculty Open Houses: Engineering, Science.

23-25 February
Western Regional Conference of Canadian Association of University Schools of Nursing (CAUSN). Theme: Baccalaureate Nursing Education for the '80s. Humanities Centre.

March 1983

Standing Displays

The Brahms Library Display.

1-3 March
Association of Universities and Colleges of Canada (AUCC) meeting of University Presidents and Special 75th Anniversary Convocation.

3-5 March
Orchestrated Dance Program. SUB Theatre, 8 p.m.

9 March
Elly Ameling Brahms Concert. Convocation Hall, 8 p.m.

10 March
Sports Wall of Fame Induction Banquet.

11-12 March
Canadian Interuniversity Athletic Union (CIAU) Western Regional Basketball Championship. Main Gym.

14-20 March
Conference on "Canada, the World and the Future."

18-19 March
Symposium on "Christian Marriage Today: Growth or Breakdown?" St. Joseph's College.

Pacific Northwest Renaissance Conference. Humanities and Fine Arts.

April 1983

11-12 April
Symposium on "International Affairs." SUB Theatre. Admission: \$10.

17-19 April
Conference on "The Business Community and Canadian Universities." Sponsored by the AASUA, the Confederation of Alberta Faculty Associations, and the Institute for Research on Public Policy. Four Seasons Hotel.

May 1983

30-31 May
Spring Convocation. Northern Alberta Jubilee Auditorium.

June 1983

1-2 June
Spring Convocation. Northern Alberta Jubilee Auditorium.

23-25 June
AID '83. Conference of Alumni, Information and Development Officers of Canadian Universities and Colleges. Westin Hotel.

July 1983

1-11 July
World University Games.

Music and Drama to Play a Part in Anniversary Celebrations

The performing arts have long had a high profile at The University of Alberta. Now, as the 75th Anniversary celebrations move into full swing, that profile will increase, as the cultural arm of the University reaches out into the greater Edmonton community.

The Department of Music will unveil major displays on the life and works of Igor Stravinsky, Johannes Brahms, and Joseph Haydn; present the world premier of Violet Archer's "String Quartet No. 3" (commissioned by the CBC by way of recognizing the University's anniversary); and host a special three-concert Brahms festival. Convocation Hall will be home for many of the special musical events to be held during the year; others will be held at the Jubilee Auditorium. In addition, tours to both northern and southern Alberta will be undertaken by

various groups within the Department of Music. Wherever the location, the Department will most certainly be heard from throughout the anniversary year.

Studio Theatre is the oldest continuing theatre in Alberta. Entering its 33rd season this fall, Studio Theatre has a well-earned reputation for excellence and imagination. The showcase for the Department of Drama at the University, Studio Theatre will present six plays this year. In all of them student actors, directors, and designers will be very much in evidence. This season's repertoire is a varied one, and will allow aspiring dramatists to "show their stuff" to advantage. The comedy of "Twelfth Night," the lunacy of "Marat/Sade," the squalor of "Buried Child" ...whatever the play, Studio Theatre will once again provide solid entertainment to Edmonton theatregoers. □

Public Welcomed to University Open Houses

Six times during the 1982-83 winter session, The University of Alberta will literally throw open its doors to the people of Alberta. The Office of the Registrar, in cooperation with the 75th Anniversary Committee, is sponsoring a series of Open Houses designed to encourage the public to come to campus and learn more about the University.

The decision to have a series of Open House weekends throughout the year was a deliberate one, according to Lorne Gunter, Acting Admissions Officer. "This way, we involve the public, and particularly prospective students, with the University several times during the anniversary year," he explains. "Not only will this increase their familiarity with our campus, and with our academic offerings, but it will also focus more attention on the participating Faculties, more attention than would be possible in one large event involving all Faculties."

The first Open House is scheduled for the weekend of 2 and 3 October and features the Faculty of Pharmacy and Pharmaceutical Sciences. Historical displays on pharmacy in Alberta will demonstrate the

enormous changes that have taken place in the past seventy-five years. Scientific displays will showcase analytical equipment and methods of measuring minute quantities of drugs. Some of the scientific techniques used in the preparation of pharmaceutical products will also be exhibited. The manufacture and use of radioactive drugs will be featured, as will the University's Slowpoke nuclear reactor, used to make radioactive isotopes for drug research.

Professional practice displays will demonstrate current procedures in pharmacy, including the use of computers, and new and complex drugs. Pharmacy staff and students will be on hand during the two-day Open House, ready and willing to answer questions and hand out information packages.

The Open House will be held in the Dentistry/Pharmacy Centre from 10 a.m. to 6 p.m. on Saturday, and from noon to 6 p.m. on Sunday. The Faculty is hopeful that pharmacy alumni will take the opportunity to visit their alma mater during the Open House festivities. A complete schedule of Open Houses is included in the calendar of events. □

World University Games

1 July 1983 marks Canada's 116th birthday. But for Edmonton and The University of Alberta, the day takes on added significance, for on that day the World University Games begin.

The Games, acclaimed as one of the most prestigious sports competitions in the world, second only to the Olympics, will bring together on the University campus an estimated 4,500 top calibre athletes from around the world. Jointly sponsored by The University of Alberta and the City of Edmonton, Universiade '83 will be a grand sporting event, with competitions in ten events — track and field, swimming, diving, cycling, fencing, basketball, gymnastics, volleyball, tennis, and waterpolo. Athletes from close to 100 nations will vie for medals in the various events.

In addition, an International Sports Congress and a Cultural

Festival will be held. The Sports Congress, to be held during the Games, will bring together top international scholars. The Cultural Festival, Kaleidoscope '83, will run concurrently with the sports competitions and offer a variety of exhibitions and performances throughout the city.

Tickets are now on sale for the many sporting events and may be obtained by calling the Universiade '83 office at 432-5593. □

Celebrations

The Department of English at The University of Alberta is as old as the University itself. As a founding discipline, the Department has made and continues to make significant contributions to the Canadian literary scene.

In an effort to involve not only the people of Edmonton and Alberta, but, indeed, all of Canada, in this thriving scene, the Department of English in cooperation with the Canadian Studies Program at the University will host "Celebrations."

"Celebrations" will bring to the campus, at regular intervals from October to March, many distinguished Canadian writers and critics, all of whom have at one time been associated with this University.

The who's who list of invited participants includes Margaret Atwood, Rudy Wiebe, W.O. Mitchell, Matt Cohen, Robert Kroestch, Tom Wayman, Marian Engel, and many others.

A special highlight of "Celebrations" will be a tribute

The Humanities Centre: home of "Celebrations."

to the University's Henry Kreisel, writer, teacher, critic and administrator, whose connection with The University of Alberta began in 1948 when he joined the staff of the Department of English.

The series of homecoming weekends will include a balanced mixture of readings, reminiscences, critical commentaries, and autograph sessions. A complete list of the planned "Celebrations" is included in the calendar of events. □

Conference to Take on Imposing Issues

Some of the key issues facing Canadians today will be scrutinized at a major conference on "Canada, the World and the Future" to be held on campus next March. Yet another facet of the 75th Anniversary celebrations, the week-long conference will provide a forum for six main topics for discussion.

Distinguished speakers from Canada, the United States, and Great Britain will join with experts from The University of Alberta and the Province of Alberta to look at the following topics: (1) Food, Technology, and Population; (2) Crime and Punishment; (3) Women: Is the Battle Lost?; (4) War and Peace; (5) Medicine and the Law; and (6) The Arts and the Sciences in Society.

Each of the proposed topics will be divided into various sub-themes and each will include representation from a number of related fields. It is possible, according to Baha Abu-Laban,

Associate Vice-President (Research) and organizer of the conference, that other topics will be added to the roster at a later date.

The conference is scheduled for the week of 14 to 20 March. More information on the various sessions will be forthcoming as the preparations continue. □

Symposium to Look at Science and Religion

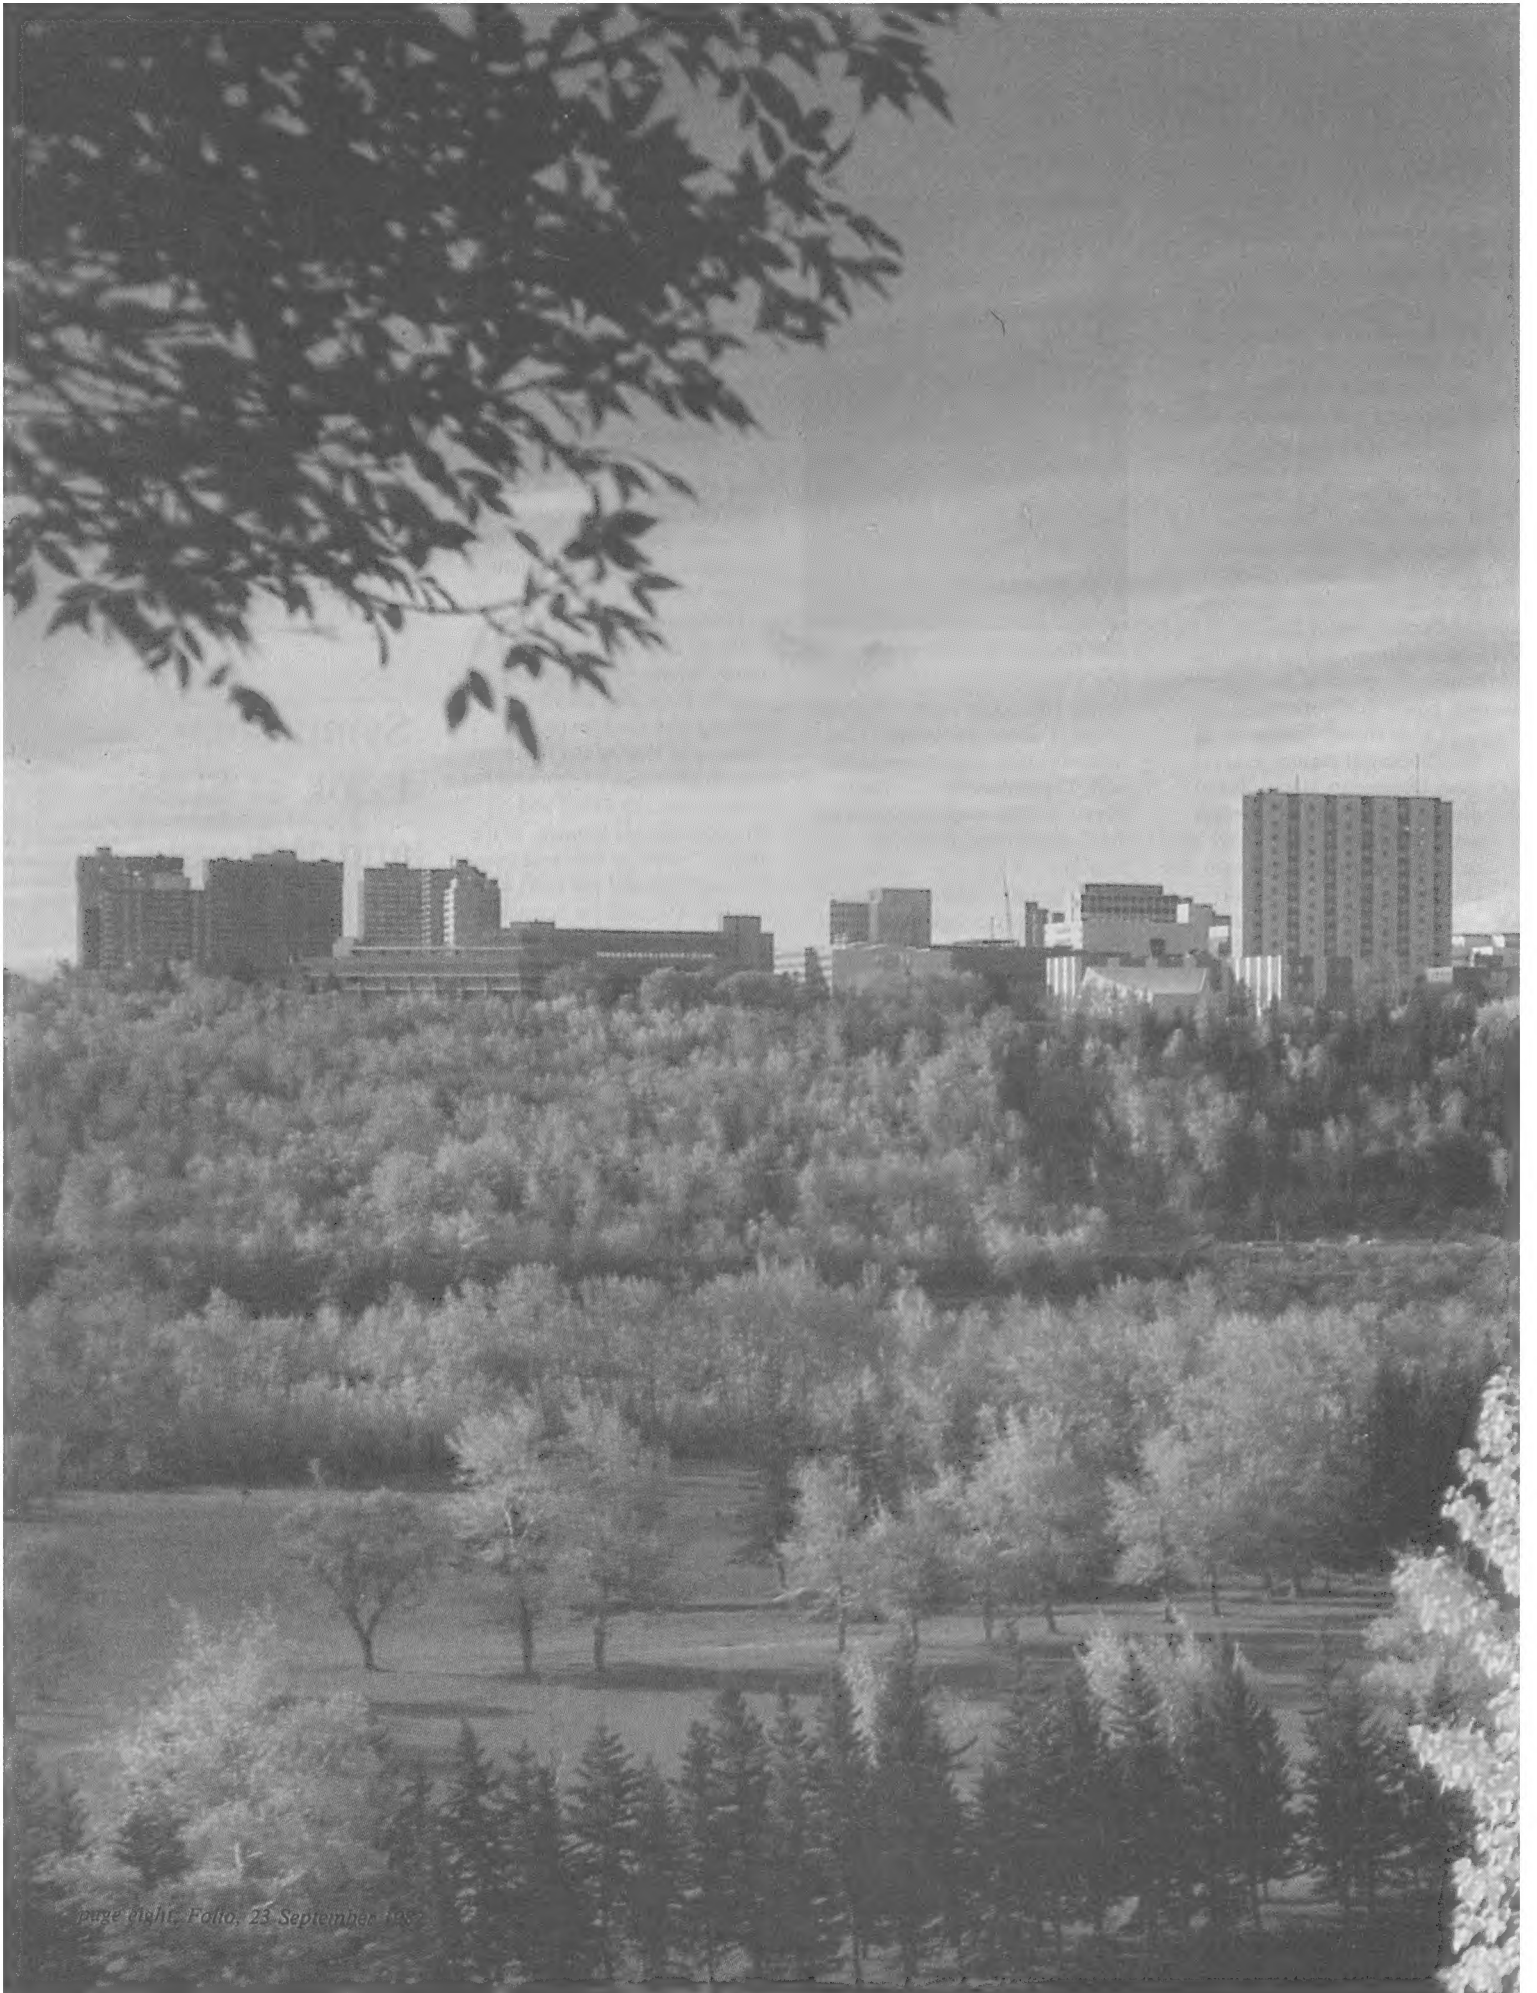

As their contribution to the 75th Anniversary celebrations, the University Chaplains are sponsoring a week-long Symposium on Science and Religion. The key speaker for the event is T.F. Torrance, Emeritus Professor at the University of Edinburgh, and an internationally-known theologian.

During the symposium, which is scheduled to run from 14 to 19 February, Professor Torrance will deliver three key-note addresses, each of which will then be discussed by selected University "respondents." "Our hope is to have representatives of a variety of disciplines respond to Professor Torrance in an effort to show the existence and importance of alternative ways of thinking," says Tom Oosterhuis, Chaplain of the Christian Reformed Church. Morning sessions held during the symposium will be on a smaller scale, and a number of faculty members will be invited to participate.

"Professor Torrance is very well known in theological circles," says Rev. Oosterhuis. "It is a real privilege for us to have him come all this way for the symposium." □

As green turns to gold, more than 20,000 students meet once more on the University campus. To Ethel Anderson, sole living member of the Class of 1912, the numbers must seem unbelievable. Her graduating class — the first in the University's history — consisted of eighteen.
